## IMPORTANT SAFETY RECALL NOTICE

**Re: Voluntary Recall of Certain 30" Free-Standing All Gas Electrolux ICON® Ranges  
With Model Number E30GF74HPS**

Dear Valued Electrolux Customer:

Electrolux strives to provide our customers with high-quality, innovative products, and your safety is our top priority.

Electrolux recently discovered that a small number of 30" Free-Standing All Gas Electrolux ICON Ranges may have been manufactured with an incorrect orifice in the oven. Ranges with an incorrect orifice may be allowing more fuel to pass to the oven than it can burn efficiently, which may cause carbon monoxide and/or other gases to be emitted. Electrolux, in cooperation with the U.S. Consumer Product Safety Commission ("CPSC"), is working to correct this potential safety hazard.

We understand that you may have purchased a range that may be included in the company's voluntary corrective program (the "**Program**"). This Program involves ranges with the following model and serial numbers ("**Affected Ranges**"):

Brand	Model	Serial Number Range
Electrolux ICON	E30GF74HPS	NF83000000 – NF93633000

**\* Not all serial numbers within this range are affected.**

These products were sold from August 2008 through October 2009. If your range falls within these model and serial ranges, you should contact Electrolux to arrange a free service call to determine whether your range is affected.

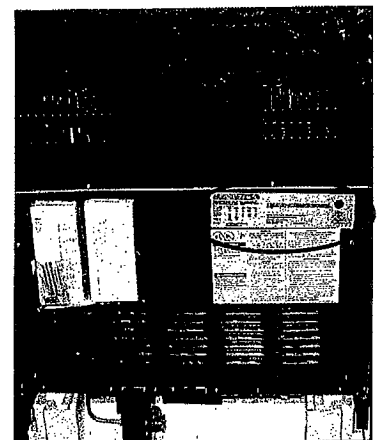

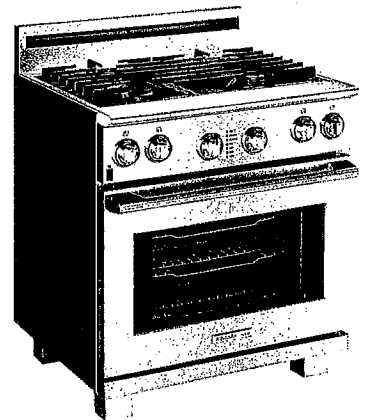

**If you have a range with the model and serial numbers listed above, stop using the oven immediately and inform everyone else who may intend to use the oven of the potential safety hazard.** You can continue to use the cooktop (i.e., the top burners) and the broiler, as well as any clock and/or timer functions. **Do not attempt to shut off the gas to your range or attempt to repair the range on your own.**

If you have a range with the model and serial numbers listed above, please contact Electrolux toll-free at 1-888-360-8557 between 8:00 a.m. and 10:00 p.m. ET Monday-Friday, Saturday between 10:00 a.m. and 3:00 p.m. ET, or visit the firm's recall website at [www.gasrangeorifice.com](http://www.gasrangeorifice.com) to schedule a free in-home inspection and repair.

We apologize for any inconvenience that this may cause. Your safety and satisfaction with our products is always our number one concern.

Very truly yours,

Electrolux

The model and serial number can be found on the back of the unit, as depicted in photos above.
