**Re:** Manufacturers Warranty on Fisher & Paykel Product from February 2009

**Date:** Jan-04-2009

---

Please be advised that effective February 1<sup>st</sup>, 2009 the warranty period for any Fisher & Paykel branded appliance will be 1 year parts and labor from the date of purchase.

We are implementing this change in our Global factories during the first production week of January 2009. The units with the new warranty can be identified by having a serial number which will start with a letter N. All units will contain a Use and Care Book identifying as such the new period of warranty for that product.

All products that contain a Use and Care book showing the warranty as 2 years parts and labor will still have this honoured on that unit from the date of purchase.
